

Cottonseed meal

- High protein feed source
- Comparable to soybean meal in quality
- Can mix with salt as part of a creep feed offered free-choice
- Palatable for ruminants

Feeding Considerations

- Usually makes up no more than 15% of diet dry matter

On average:
90% dry matter
77% TDN
46% CP
0.21% calcium
1.20% phosphorous
