TESTING INFORMATION FOR PROFESSIONAL SERVICE EXAMINATIONS

Thank you for your interest in taking the **Industrial, Institutional & Health-Related Pest Control (IIHC)** exam, which is administered by the Alabama Department of Agriculture (ADAI). Please note that IIHC is a custodial category intended only for individuals employed by entities where this type work is performed on their premises; individuals with this certification are not allowed to charge for their services. There are two ways to test in this category:

- (1) The most convenient way to test is to take a computer-based exam at one of our testing sites. Tests are given on a weekly basis, and we have testing centers in Athens, Auburn, Birmingham, Hanceville, Headland, Millbrook, Mobile, and Pelham. The fee for a computer-based exam is \$125 per exam (\$75 state fee plus \$50 administrative fee). To sign up for an exam, please visit <http://apply.adaitesting.com> to submit your application, being sure to include a qualification statement if required (follow onscreen instructions). Once ADAI has approved your application, you will receive an approval email; please save this email and follow the instructions therein. It is during this second phase that you will pay for and schedule your exam.
- (2) You may take a paper-based exam at the ADAI facility in Montgomery. Professional service exams are given four times a year on the third Tuesday in March, June, September, and December. Preregistration is required; please submit your application and qualification statement (if required) 30 days prior to exam date. You may download and print the Professional Services Exam Application at <http://agi.alabama.gov/divisions/pesticide-management/certification-and-testing>.

For questions related to testing, please contact the Certification & Training Unit at (334)240-7243.

WHAT TO DO ONCE YOU HAVE PASSED YOUR TEST

Once you have passed the **Industrial, Institutional & Health Related Pest Control-Custodial (IIHC)** exam administered by the Alabama Department of Agriculture (ADAI), you must apply for your Commercial Applicator Permit in order to be certified; the fee for certification is \$45 per category. The Application for Commercial Pesticide Applicator Permit is located under the Certification & Testing tab of our website: <http://agi.alabama.gov/divisions/pesticide-management/>. *Please note that if you do not apply for your certification within one year of passing the exam, your exam will be void and you will be required to retest in order to apply for certification.*

Once you have obtained your certification, in order to be eligible to apply for renewal, you must obtain a minimum of 30 continuing education points during your three-year renewal cycle. If you do not obtain the required number of points, you will be required to take a recertification exam prior to applying for renewal. A list of recertification meetings and CEU guidelines is maintained on our website under the Certification & Training tab.

For questions related to certification, please contact the Certification & Training Unit at (334)240-7240.
